

数学 1

Math 1

Jiawen(Sunny) Yang

本课程目标:

- 让小朋友学习基本的数字，并通过数数让孩子们了解数学。
- 让孩子们掌握 1-20+的数数，以及简单的个位数加减法。
- 利用生活中的实例来培养小朋友对数学的理解和兴趣。

Helping grade 1-2 students to learn and use basic fact, problem solve and understand mathematical concepts is the main core in this class. Also, getting students advanced in Continental Mathematics League and finding the interest of learning mathematics. We will focus on Shapes, sorting and classifying, number writing, counting, adding and subtracting, word problems, geometry, measurement and geometry base on New York state generated teaching modules. There will be homework assigned each week, and due a week later.
